PROJECTS

Georgia Tech Stingerette Redesign

UI/UX Designer/ Brand Designer | Aug - Nov 2022

Designed, prototyped, and user tested redesign of Georgia Tech rideshare app aimed to provide safe evening transportation. Developed new design system and motion graphics that resulted in a friendlier, modern interface. Conducted user research on 50+ GT students on usage patterns/experience and analyzed results to build user journey/personas which resulted in insights about pain points and potential improvements.

Hartsfield Jackson Airport Curbside Experience

UX Designer/Researcher | Mar-Apr 2022

Redesigned and restructured Atlanta Airport's curbside pick-up/drop-off experience in team sponsored project. Surveyed and interviewed 100+ emerging high-value customers and airport execs on current user experience and created documentary on interview footage to highlight pain points. Designed slide decks to summarize solutions for airport execs. Received positive feedback.

EXPERIENCE

Georgia Tech Professional Education

Instructional Media Specialist | Dec 2022 - Present

Oversaw control panel and camera operations to capture classroom lectures for remote students. Coordinated with professors and media team.

Georgia Tech Student Center

Info Desk Student Assistant | May 2021 - May 2022

Managed front desk of campus student center and responded to requests for information, directions and reservations. Recorded and inventoried lost and found.
